The Pluckr PR3

Automatic destemming of grapes,
berries and cherry tomatoes

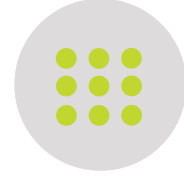

Healthy Snacking

Fresh grapes and berries are tasty and healthy snacks. With the Pluckr it is now possible to destem grapes, berries and even cherry tomatoes for easier packing and snacking.

Technical Benefits

Picking grapes and berries manually takes a lot of time, making it very cost inefficient. The Pluckr is the first device that automatically picks grapes and berries without damaging the fruit. The Pluckr PR3 destems grapes up to 350 kg per hour.

Packaging (AMAP)

Packing the picked berries and grapes in a sealed tray or cup in combination with AMAP technology increases the shelf life up to 4 weeks. AMAP technology adjusts the packaging to the respiration rate of the fruit inside.

Specifications Pluckr PR3

- 250 - 350 kg grapes per hour
